

The 73m³ apartment invites you to feel comfortable during your stay.

There are two sleeping rooms available - one of them could be used as study as well. The openly designed living and dining area leaves nothing to be desired - you can take a rest on the comfortable couch, watch tv or a DVD. Besides the dining table, there's a small bistro-table for the espresso inbetween that you can prepare in the kitchen's Senseo coffee-machine. Of course there's a dishwasher, a freezer/fridge, microwave, toaster and a fullsize stove with oven.

On beautiful days the terrace invites you to have a barbecue on the weber-grill. Just have a look on some [photos](#).
